and seemed to have been taken aboard,
one in towards the front but the other
seemed to be sitting facing the back, at the
very back of the capsule holding on tightly
and apparently something large, as perhaps
a long lance. This person looked
large and all brown, the color of light coffee.
The size of the thing was about the size
of a large commando, compared to the other
flying saucer c-130.

The capsule was like a medicine capsule
around in the front and back. Front the

 back it had very short type of wings
that appeared just about five feet the
most, on either side of it.

I have never seen anything like it
before, and am constantly taking at the
time wondering if I'll see it again. Many
just a long, sleek, and smooth like shield
like shield, and, it seems no impossible to
have been flying, take many and it
and it was going down. It the day very so
it had got a very faint about it, and
it had now started to follow up the bushes,
and bushes all around, and

to this and you will be able to see
it and judge things for yourself.
Answer this letter please. It would be
very necessary to know it.

Keesler AFB, Mississippi

1. Reference the attached letter from Mr. [REDACTED] requesting information on an unidentified object which she observed on 20 Jan 1965.

2. The information in Mrs. [REDACTED] letter indicates an observation of a helicopter of some sort. Since she has requested an answer and may have misinterpreted a conventional helicopter, we would like to know the various types operational at Keesler and/or any other operational aircraft of the nature she describes. A photograph of any helicopter similar to this might serve to reassure Mrs. [REDACTED]

3. It is not necessary to contact the observer since the public relations aspects of sightings are handled through the Secretary of the Air Force, Office of Information. This information should be forwarded to TDEW/UFO, Wright-Patterson AFB, Ohio 45433.
